

EXPRESS MODIFICATIONS AT STANDARD PRICING COST

Samtec offers express modification and engineered custom products with low or no NRE charges, quick-turn samples, short lead times, and low or no MOQs. These customized solutions account for more than 20% of Samtec's business, and is why we have been consistently ranked #1 in the industry for willingness to modify a product.

Our capabilities combined with dedicated Application Specific Product engineers and technicians make customization possible across every product category – from Silicon-to-Silicon™.

FEATURES & BENEFITS
